Senior Lecturer/Course Coordinator
Bachelor of Engineering Technology

- Melbourne CBD Location
- Fixed Full-Time Position
- Level C Academic Position

About us:

MIT prides itself on offering first-class Bachelor and Master level courses across a variety of disciplines.   It allows students from around the world to directly leverage the skills of our academic team to achieve professional career outcomes.   MIT delivers its own accredited higher education courses via the School of Business and the School of Information Technology and Engineering at both the MIT Melbourne and Sydney Campuses.   In addition, MIT also delivers Federation University qualifications at both campuses.   This position in located in the School of Information Technology and Engineering which offers courses in Computer Networking, Security, Cyber Security, Software, Mobile Telephony, Signal Processing, Embedded Systems, Electrical and Electronic Circuits, Data Analytics, Artificial Intelligence, Cloud Engineering, System Architecture, VPN, Python and Java Programming.

About the role:

The Senior Lecturer will provide academic leadership in the School of Information Technology and Engineering in the disciplines of software engineering. More specifically, you will be designing, coordinating and teaching units in the courses offered by the School and assisting in the coordination and management of these units. The position contributes to the School achieving its objectives and goals, which in turn support the vision and strategic aims of the institution. The teaching and learning (T&L) and coordination responsibilities of the position include unit development, unit delivery, program coordination and student advice for both undergraduate and post-graduate students.

A primary focus of this position is to make a strong contribution to continually improving MIT's quality of services, by actively developing high quality, research-informed T&L material, coordinating courses and identifying and responding to student needs. A position description is available at: http://www.mit.edu.au/about-mit/jobs-mit
